"EAGLE OF THE SEA"

THE COLEMAN JOURNAL

Vol. 6 No. 31

Coleman, Alberta, Thursday, March 24, 1927

\$2 per year, single copy 5c

ALBERTA'S SURPLUS DOWN
The surplus for 1926 of the Province of Alberta is \$170,218.47 lower than that of 1925, according to the report, tabled in the Legislature by Hon. R. C. Reid, Provincial Treasurer. The figures are: 1925, \$188,019; 1926, \$17,800.53.

Santa Claus is Coming Get Your Stocking Ready

Sentinel Lodge No. 25, Knights of Pythias, Coleman, are this week starting a ticket sale drive that will finish on Saturday, July 2nd, in some lucky individual owning a splendid thirteen hundred dollar Pontiac automobile. These worthy Knights are out to raise sufficient money to re-model their present lodge quarters, and as they believe in the axiom that in order to get out of debt you have to get into debt, they last week bought a \$1300.00 Pontiac car from the local agent here, and some fortunate individual is going to get this aristocrat of the automobile world for the small sum of \$1.00.

A mammoth dance is to be held in Coleman on Saturday, July 2nd, the admission charge for which is \$1.00, and during the course of the evening the holder of the lucky ticket will find a 1927 model Pontiac in his or her stocking—just like Santa Claus at Christmas time. This story will be continued on large posters shortly to be printed by The Journal. Watch for them, and be sure and take a perfectly sound stocking with you when you attend the dance on Saturday evening, July 2nd.

The Morrison Cup Finds a Resting Place

The closing of the curling season last week saw the final reached in the Morrison Cup event. The Gare rink consisting of G. Key-Jones, Geo Morgan, W. Lees and E. F. Gare (skip) have the custody of this piece of silverware until next season, while the Moore rink consisting of R. Jenkins, W. White, T. Holstead and J. Moores (skip) secured second in this competition.

SIR PATRICK MCORATTE
Who compiled and assembled the material used by Newfoundland in establishing his claim to the Labrador Peninsula. He welcomed the decision as exceeding all Newfoundland's expectations.

Women's Institute to Meet Tues., March 29

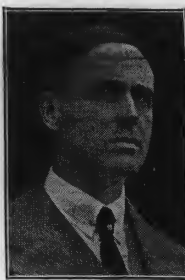

The regular meeting of the W. I. will be held at the home of Mrs. Ouimette on March 29th. As this is "Visitor's Night" an especially pleasing program has been arranged, including vocal selections by Mrs. Davidson, Icing demonstration by Mrs. Glendening and a recipe contest. Roll call will be answered with Irish jokes.

Any non-member wishing to avail themselves of an evening of entertainment and instruction is cordially invited to attend.

Make a Start This Year

The Coleman Town Council would be well advised to make such plans as are necessary to insure a start being made this year on the construction of permanent pavement. Two or three blocks built on Central street this year and two or three blocks on Central Avenue next year, and gradually extending the work each year until the central portion of the town has been completed, would seem to be a sane, economical and constructive policy to adopt, if the work is done on a local improvement basis.

It will be time enough to reach out to the outlying sections of the town after the main thoroughfares have received attention.

TO INVESTIGATE B.C. CLAIMS
Mr. Justice W. M. Martin of the Supreme Court of Saskatchewan, who has been appointed special commissioner to probe the claims of the British Columbia Government that lands granted to the Federal Government at the time of Confederation should be returned to that Province.

Pass Mines Get Orders

As mentioned in The Journal last week, the Canadian Pacific Railway coal contracts were awarded last week end, and most of the coal companies in The Pass commenced to fill these orders on Monday of this week. From what can be learned the two companies in Coleman received a good share of the large order placed by the Railway Company, and this business will keep them fairly busy well on into the summer.

A Decided Success

The dance "extraordinary" held in the Opera House on Monday evening was in every way equal to the advance notices. Splendid music furnished by the Elk's Blendwell Orchestra of Pincher Creek, combined with pretty interior decorations, a good floor and a big friendly crowd of dancers, and many novelty events, all harmonized to make it one of the most pleasant events of this nature ever held in Coleman. An announcement at the close that on Wednesday, April 20th, another dance would be given in aid of the Baseball Club, was greeted with prolonged applause.

Leslieville Resident, Well Known in Coleman, Dies After Short Illness

Many Coleman residents were shocked to hear of the sudden passing on Thursday evening of last week of Mr. Robert Menzies, at Leslieville, Alberta, a brother of Mrs. J. M. Allan and Mrs. G. Odell of Coleman. Mr. Menzies was taken down with flu which developed into pneumonia and terminated fatally in less than a week after being stricken.

The deceased was well known to many in Coleman, he having spent several months here last winter and took part in many curling games at the local rink during his stay here.

Besides his two sisters residing in Coleman, the late Mr. Menzies leaves a brother and sister at Leslieville to mourn their loss. Mrs. J. M. Allan left on Thursday night's passenger for Leslieville. Mrs. G. Odell, who is just getting around again after a serious illness, was unable to make the journey. Sincere sympathy is felt here for the members of the family in their sad bereavement.

Eloquent Taber Pastor At St. Paul's Sunday

The Rev. G. H. Villette, B. A., of Taber, one of the most forceful and eloquent preachers in Southern Alberta, will occupy the pulpit of St. Paul's United Church at both services on Sunday, April 27th. Every seat in the church should be occupied as the Rev. Mr. Villette will have a stirring message on the occasion of his visit to Coleman.

Coal Duty Discussed

President W. R. Wilson of the Crow's Nest Pass Coal Co., arrived home on Saturday from a hurried business trip to Toronto and Ottawa.

He was called to Ottawa to consult with members of the Dominion cabinet in regard to the proposal to put a further duty on the importation of bituminous coal. As this duty would be absolutely disastrous to the coal mines in British Columbia that are shipping coal to the United States it is imperative that the government have a full knowledge of the facts in the case.

Fernie district, which would be most deeply affected by any increase in duty, will expect the Hon. Dr. J. H. King to put up a big fight against any proposal which might have the effect of ruining our coal markets.—Fernie Free Press.

Newspaper Publisher Heads Ontario Orange Order

J. J. Hunter, publisher of the Kincardine Reporter, was elected grand master of the Orange grand lodge of Ontario West. He is the first Liberal to hold the office.

A number of social events were held last week end in Coleman. Among those giving bridge parties were Mrs. S. Short on Wednesday evening, Mrs. W. L. Rippon on Friday and Mrs. C. S. Ouimette on Saturday evening.

FOR SALE

PIANO, Gerhard Heintzman, in good condition. Will sell cheap for cash. Apply to Mrs. N. Murphy at C. Ouimette's residence, Third street, Coleman. Phone 1060—31-t.f.n.

Coleman's Junior First Aid Team Wins Provincial Championship

The Coleman Junior First Aid team won the Provincial First Aid competition for Juniors in the tests held throughout the province recently. The boys feel justly proud of their win as there were a great many teams competing throughout the province. The team consists of four boys, three of whom are attending the Coleman High school—D. Flynn, F. MacLeod, M. Hall and R. Wilson. The success of the boys has been largely due to the effective training given by R. Greenhalgh, their instructor.

The team will now enter the Inter-provincial competition to compete for the Wallace Nesbitt trophy. It is expected that this competition will take place in May.

The boys scored a total of 227 points out of a possible of 250. The second junior team from Coleman also did well with a total of 204 points.

SCOUT NEWS

Come On Out!

The annual meeting of the Association takes place in St. Alban's Parish Hall at 8 p.m. on Monday of next week. Parents of all Boy Scouts, together with others interested in the Scout movement are cordially invited to attend this meeting. Come on Out!

Four new recruits have joined No. 1 Troop during the last two weeks and a few more are in sight. Scoutmaster Brown is expecting to form the third patrol in the near future.

Alberta Royal Arch Masons Elect Officers at Annual Meeting

William M. McNab, of Edmonton, was elected grand first principal of the Royal Arch Masonic lodge of Alberta at the annual meeting. Other officers elected were: Grand second principal, F. S. Sawood, Calgary; grand third principal, James R. Flan, Calgary; grand scribe, E. C. R. Wentzel, Calgary; grand scribe M. James Cleave, Calgary; grand principal journeyman, J. W. Morrison, Vermilion; grand registrar, D. W. Cotton, Edmonton.

The L.O.B.A. held a whist drive at the home of Mrs. J. Ballock on Monday evening last. A very nice crowd was present, the first prizes going to Mrs. Allan and Mrs. Glen-Jenning, the second to Mrs. Ballock and Miss May MacKinnon. A very nice lunch was served and all enjoyed a very pleasant evening.

A pleasant time was had at the whist drive held in St. Alban's hall on St. Patrick's Day. The prize winners were as follows:—Gentle 1st Miss May Moore, 2nd Mr. W. Gates, consolation Mrs. W. Gates. Ladies 1st Mrs. W. Jackson, 2nd Mrs. Howarth, consolation Miss Evelyn Ford. Community singing was enjoyed until midnight.

It is very important that all members of the junior choir of the St. Paul's United Church turn out for practise on Friday night at 7 o'clock.

Popular Nurse Leaves For Vancouver

Miss Inez K. Dunlop, for the past two and a half years, assistant matron at the Nicola Valley General Hospital, left on Monday for Vancouver, where she has accepted the position of assistant night supervisor at the Vancouver General Hospital, and will assume her new duties the first of the coming week.

The many friends of Miss Dunlop, while pleased to learn that her new duties are a well merited promotion in her profession, are exceedingly sorry to learn of her departure from Merritt as during her residence here she has proved herself a very capable and efficient nurse, and has enjoyed a very wide circle of friends among the residents of Merritt. Previous to Miss Dunlop's departure several social evenings were given by the most prominent people in Merritt, bidding her adieu.

The above news item appeared in the Herald of Merritt, B. C., in the issue of March 4th. Miss Dunlop is the eldest daughter of Mrs. C. F. Dunlop, of Coleman, and her many friends in her home town here are indeed glad to learn of Miss Dunlop's rapid advancement in her chosen profession.

The Journal is FOR a policy of permanent road building in Coleman.

HON. G. S. HARRINGTON, K.C.
Minister of Works and Mines in the Nova Scotia Legislature, who has introduced an amendment to the Coal Mines Regulations Act in the Legislative Assembly. The proposal calls for an eight-hour day for miners and an embargo upon the importation of mine-workers from outside the province.

Husband Pleads for Leniency For Wife Who Hit Him

EDMONTON, March 19.—Mrs. Margaret Adick was found guilty by Judge Taylor in the district court Saturday morning of "grievously wounding" Veko Adick, her husband, at a drunken brawl following a New Year's Eve party in the Adick home. The decision followed the trial of the previous day, when judgment was reserved in her case and Hugh C. MacDonaid, tried jointly with the woman, was acquitted. A fine of \$200 or three months in the penitentiary was allowed for its payment. A plea by her husband for leniency marked the climax.

Girls Make \$35.00 at Tea.

The St. Patrick's Tea and Pantry Sale held last Saturday afternoon in the club rooms of St. Paul's Church by the Golden Key and Golden Star Mission bands, proved entirely successful. The young girls sold their entire stock of good things to eat besides serving many tea customers during the afternoon. The net proceeds amounted to something over thirty-five dollars.

SPEAKER OF THE N.B. LEGISLATURE
Hon. J. Leonard O'Brien, who is the Speaker of the New Brunswick Legislature. He represents the County of Northumberland, the same county that his late father John O'Brien, represented in the Legislature for thirteen years.

Town Band to Give a Sunday Concert, April 3rd

A splendid program has been arranged by the Coleman Town Band for a concert in the Grand Theatre on Sunday evening, April 3rd. In addition to a varied list of musical numbers by the band, the following artists will take part: Mrs. Davidson, Mr. D. E. McLean, Mr. James Low and Mr. J. Pearson, Jr. Mr. D. Gillespie will officiate as chairman and Mr. J. Pearson will wield the baton.

Programs will be issued early next week and those desiring to attend this concert are requested to procure their program early, as it is more than likely a crowded house will greet the band boys in this the first concert of the year.

Curling Club Smoker On Friday, April 1st.

Invitations are shortly to be issued to Coleman curlers to foregather on the evening of Friday, April 1st, at a smoker in the I. O. O. F. hall. The business of electing officers for the 1927-28 season and a report of the past year will commence at 8 p.m. After these matters have received due attention, the smoker proper, including presentation of cups to winning rinks, interspersed with a very interesting and mirth provoking program, will round out a perfect evening. The hope is expressed that the date (All Fool's Day) will not deter any Brother Curler from being present.

The local Brother Bills have issued invitations for a dance in the K of P hall for Friday evening of this week.

MISS HELEN RATHBONE
President of the National Union of Equal Citizenship, headed a delegation of women who called on Premier Baldwin of Great Britain to present a petition that the ballot age for women should be changed from 19 to 21.

Cuticura Baths Best for Children

Teach your children to use Cuticura Soap because it is best for their tender skins. Assured by occasional applications of Cuticura Ointment to first signs of irritation of skin, it keeps the skin soft and scalp clean and healthy. Cuticura Tablets are cooling and soothing.

Small Pack 25c. Large Pack 50c. Sold Everywhere. Price, Soap 25c. Jar 50c. Cuticura Shaving Stick 25c.

British vs. Foreign Born

The subject of immigration to Canada is, it is gratifying to note, engaging the attention of the people of the Dominion to an ever increasing extent. A very real interest is being aroused, and this interest is not confined to Canada, but is much in evidence in the British Isles. This growing interest is occasioned, not only because of a realization of the fact that one of Canada's national requirements is a larger population, but because it is becoming increasingly clear that in the present and succeeding years, Canada will be the mecca of the surplus population of older and more congested lands.

Much of the discussion around this subject is as to the effect of this larger influx of population upon the native English, Welsh and Irish, and upon the point of the Canadian people. Fears are expressed in some quarters that non-English speaking peoples will swamp the native Canadians and the British Isles, with a resultant gradual weakening of the ties binding Canada to the Empire, and the possible introduction of customs and ideals not wholly acceptable to those of British descent. It has been argued that Canada should restrict immigration to men and women of British descent.

While it will be generally admitted that greater consideration should be given to British immigration than to immigration of other races, it is a pity and a grave mistake that people strongly urging this view should indulge in statements in their references to the present composition of Canada's population, and more particularly the racial classifications of the people of the Western prairie provinces.

Speaking before the Canadian Club of Vancouver recently, Mayor Webb of Winnipeg is credited with making the statement that five per cent. of the people of the prairie provinces were non-British. It would be interesting to have Mr. Webb submit some proof in support of such a statement, because the official census figures do not support him.

At a meeting of the Women's British Immigration League held in Saskatoon a few weeks ago, the even more astounding statement was made that "before a careful study of statistics" it was established that Saskatchewan's population was 75 per cent. foreign born and only 25 per cent. British, and a Saskatoon paper headed by report of this League meeting with a two-column display declaring "Province's Population is 75 per cent. of Foreign Extraction."

In view of the circulation of such information from what might well be accepted as authoritative sources, it is well that the actual facts should be given wide publicity.

According to the census of 1921 the population of the three prairie provinces was 1,506,892, and was officially classified as follows:

	Born in Canada	Born in British Possessions	Born in U.S.A.	Born Elsewhere
Manitoba	287,718	115,111	21,641	87,611
Saskatchewan	477,582	106,225	57,847	111,705
Alberta	215,990	99,292	29,375	74,023
Total	1,160,690	320,628	108,863	273,441

In other words, out of a total population of 1,506,892, no less than 1,472,721 were British-born, either in Canada or in Great Britain and other British countries. That is, a little better than 75 per cent. were British-born as compared with less than 25 per cent. non-British. As compared with figures of 25 per cent. non-British and only 45 per cent. British.

The figures used at Saskatoon paper headed by report of this League meeting with a two-column display declaring "Province's Population is 75 per cent. of Foreign Extraction."

It is a well known fact that thousands of our people classified as born in the United States are the children of "Canadians" who emigrated to the prairie middle states in the eighties, while other thousands are of British descent.

Canada is British and British to stay. The Anglo-Saxon has demonstrated his ability to assimilate other people as no other race has done, and here we know that most of our non-British people have a high regard for democratic British institutions, a real appreciation of British history and a deep respect for British law. They are glad to have their children educated in accord to these things, and in a generation or two it is well nigh impossible to distinguish them from those of British descent, except for the surnames they bear.

British people themselves are the result of an intermingling of races, and in the melting pot of Canada there is every reason to believe that the Canadian people of the future will be one of the finest, sturdiest, most moral and intelligent races in the world. Certain it is that in education, in industry and progressiveness, in achievements already to their credit, and in the development of their governmental institutions, the people of Canada's prairie provinces do not take second place to any other section of the Dominion or country in the world.

We need criteria no fears for the future, and it is not only a mistake but most unfair to Canada for presumably informed people and organizations to broadcast untrue and therefore misleading statements regarding our people.

Too Much to Believe
"It just isn't," exclaimed Mary Curran, 75, who has lived in her home at Snowdon Silverton, Ontario, to observe the first aeroplane she had ever seen.

The Kivi, one of the national emblems of New Zealand, is a strange bird without wings or tail. It is a bird, neither fish nor fowl, but is by the native woman for adornment.

Henderson "Your boy seems to be making quite a name for himself in college as an athlete. He must be very tall."

Blake "Yes, he takes after me. I'm no slouch myself. Why, I can empty the ashes and get back into the house without getting them on me."

It's a poor weed that isn't stronger than the soil.

Every man has a threefold nature—that which he has, the which he exhibits and that which he thinks he has.

Minard's Liniment for rheumatism.

German Doctor Puzzled

Thinks Heavy Jewels May Account For Broken Wrists on Mummies

The hectic living of this modern jazz age is responsible for bodily ailments unknown to the old Egyptians, declares Dr. Arnold Sachs of the University of Heidelberg, who has performed autopsies on thousands of mummies, some of which date back 1,000 years.

"Twentieth century teeth, mouth conditions appear to have been unnecessary in ancient times because nine out of ten Egyptians had perfect teeth at death," Dr. Sachs asserts.

Cancer, gout, tuberculosis, and diseases of the blood were virtually unknown in early times, but Dr. Sachs admitted being baffled in his efforts to determine whether the wearing of heavy gold and iron bangles accounts for the large number of fractured wrists he had discovered in his examination of mummies.

Greets Duke of York

World's Largest Monarch Makes Trying Journey to New Zealand

The Duke of York has met the world's greatest monarch in the person of King Tani Solomoni of the "Charles Islands." The king weighs 322 pounds and made the 253-mile voyage from his realm, east of New Zealand, solely to pay his respects to British royalty. Solomoni is a king of the "Charles Islands," his people, the Maoris, have been wiped out by the Maoris.

It was a trying journey for Solomoni but he felt amply repaid by the Duke's warm welcome and his oblique admiration for the king's physique.

Her Kidneys Were In Pretty Bad Shape

Manitoba Lady Tells of Benefits Received From Dodd's Kidney Pills

Mrs. J. D. Beattie, in a Few Words Gives Reason Why Dodd's Kidney Pills Are So Popular.

Minneapolis, Minn. (Special)—"My kidneys were very bad and I felt as though I was not doing anything but sit around. I thought I would try Dodd's Kidney Pills, which I did, and they helped me very much. After taking two boxes I am feeling better again, and now my kidneys are fine."

What Mrs. Beattie states is all that has ever been claimed for Dodd's Kidney Pills—that they are good for the kidneys. The road to good health lies through the kidneys. If they are kept strong and well, all the impurities are strained out of the blood, and the system is kept in the blood and in the blood.

Dodd's Kidney Pills keep the kidneys in good condition to do their work of cleaning and purifying the blood.

Weak, nervous, run-down women should give Dodd's Kidney Pills a trial at once.

Will Have Everything Modern

Houses on English Estate Fitted With All Electrical Appliances

Houses that are being built on a South London estate are each to contain a wireless set, a vacuum cleaner, a refrigerator, an electric washing machine, central heating, room-to-room telephones, and an electric vacuum cleaner.

Nearly 5,000 of these houses are to be built on the estate, a large park and the builder says that he is trying to strike a new note in what may be called middle-class homes by providing benefits and advantages usually reserved for the rich.

Strange Performance Staged in Moscow

Remarkable Parade Was Grim Reminder of Czarist Days

Moscow witnessed one of the strangest theatrical performances in history recently. Dressed in striped prison garb and shackled with chains, a parade of prisoners of war, and hundreds of soldiers of the capital guarded the streets of the 300 squares by Cossack prison wardens carrying knouts and swords.

The purpose of this grim procession was to show the present proletarian police how political offenders were punished in Czarist days and to mark the tenth anniversary of liberation from imperial rule of professional revolutionists.

Each "convict" wore on his back a large area of diamonds which in pre-revolutionary days was accepted as a symbol of degradation and approval. The entire company proceeded to the Meyerhold theatre where they gave a dance, based on prison life under the emperors.

Agony of Lumbago Quickly Soothed Away By "Nerviline"

For the sharp, piercing pain of Lumbago, and the tormenting aches of the back, no liniment is so efficient, so quick to bring relief, as relief as good old "Nerviline." This the most truly penetrating through the muscles of the back, draws the pain to the surface, and so, thereby relieves the pain in a short time. Those who suffer from stiff joints, aching and rheumatic conditions should use Nerviline, the King of Pain Destroyers. Get Nerviline today, at all dealers.

New Place Open For Canada

Can Have Seat on Geneva Council Says Herbert Holt

The universal esteem in which Canada is held throughout the world is a fact to bring the Dominion face to face with the question whether or not she will accept a place on the council of the League of Nations, Sir Herbert Ames, financial director of the secretariat of the League of Nations, said today.

He predicted that if Canada accepted a seat on the council she could have it with the goodwill of all the members of the league.

This goodwill, he added, was deserved because Canada had always played the game and taken her full share of responsibility in connection with the league.

There existed at Geneva, he added, an atmosphere for peace and the men who were making international relations were the men who came to Canada ready to make concessions.

Sir Herbert summed up the change that had taken place by declaring that fear had been replaced by security, force by cooperation, and cooperation had replaced competition.

Hard and soft coals both yield to hollow's Corn Revolver, which is a sure way to get a certain and satisfactory result in its action.

A Good Word For Canada

Is Land of Opportunity for Women as Well as Men, Says Lady Byng

"We all realize that men are the most helpless creatures in the world," said Lady Byng, until recently mistress of Rideau Hall, Ottawa, at an address to a London club on the woman's side of a settler's life in Canada.

"They are never old enough to take care of themselves," she said, "and they are like this in England they are worse in Canada. Therefore, if a man goes to settle there and takes with him a woman who is not going to pull him up, he will pull."

"Canada is the land of opportunity for women as much as for men. It is the woman who is prepared to put her back into it and not care on whom she does, who will make good and become a successful and prosperous citizen."

Lady Byng described rebuses of migration as very good so far as they went, but "red tape" was terrible and had stopped a great many people from going to Canada.

She dwelt upon the hospitality and friendliness of Canadians to people from the home country.

The average man spends a lot of money for experience and then gives other people the benefit of it free of charge.

Smoked ceilings may be cleaned by washing them with cloths wrung out of water in which a small piece of washing soda has been dissolved.

Speaking of fruit, the first apple caused a lot of trouble for the first pair.

"Worth its weight in gold" Says Ottawa Matron

Mme. Beatrice Charlebois could not hold pen to write. Nerves completely shattered, health ruined. Now alert, vigorous and strong, she gives praise to Tanlac

The two-year ordeal which she passed through before Tanlac came to her rescue, was recently described by Mme. Beatrice Charlebois, 67, 22 Rose St., Ottawa.

"What I endured in that time could not be told," she said, "I was so weak I could hardly walk. My appetite was poor and my stomach gave me no end of trouble. Grief and pain would bring on fainting spells."

"My nerves were so completely shattered that I jumped in fright every time the doorknob rang. My hand trembled so that it could not hold the pen to write my name. Night after night I've gone without sleep, too nervous to be still for even a few moments. Even my housework became too much for me."

"I tried all kinds of remedies in that time, but none did me any good. Tanlac gave me my first real relief. It built me up so that I've gained 11 lbs., eat and sleep like I have and have nerves as calm and steady as ever. Tanlac is worth its weight in gold."

Build up your health on Tanlac, nature's own tonic made from roots, herbs and barks. Your druggist has it. Over 65 million bottles sold.

Rural Mail is Heavier More Use Being Made of Postal Redoubt Than Was Anticipated

When penny postage was inaugurated through the budget of last year it was estimated by the minister that the loss in revenue from the decrease in the former three-cent rate would be approximately five million dollars.

It is stated that, while there has been little increase in the volume of business letters, the return to penny postage has been appreciably increased by the use of the rural districts, and that as a result the decrease in revenue will be, not five millions, as estimated, but about two and a half millions.

The department will show a considerable deficit for the current year, but not nearly so great a deficit as expected.

MAKE CARE OF BABIES EASIER

Stomach disturbances and constipation are responsible for much of the prevalence of babies who are irritable. When the baby is young and irritable the mother should not resort to so-called soothing and correcting remedies, for in the majority of cases these mixtures simply drive the child into an unnatural sleep. What is needed is a gentle laxative that will soothe the stomach and regulate the bowels. Such a remedy is found in Baby's Own Tablets. They are easy to take and guarantee to be entirely free from opiates and narcotics. Concerning them, Mrs. J. C. Toulmin, St. Louis, Mo., writes: "I would like all mothers to know that I feel there is no other medicine to equal Baby's Own Tablets. My baby keeps a box in the house and their prompt use never fails to restore my little ones to health."

The Tablets are available from all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Sho: And will you ever stop loving him? Well, I have to go to the office by ten tomorrow morning—Life.

As in nature, so in government—nothing is permanent that is violent.

GENERAL MOTORS' LATEST ACHIEVEMENT
The New and Finer
PONTIAC SIX

SEDAN \$985
 at Factory, Oshawa
 Sales Tax Extra
 NO EXCISE TAX

General Motors today announces an entirely new line of Pontiac Sixes, notably enhanced in beauty, incorporating numerous refinements in design, carrying new low prices—and constituting the most electrifying development in the low-priced car field since the now-historic introduction of the original Pontiac Six!

New Fisher Body

Never before in any low-priced six have been achieved such commanding beauty and luxury. The new bodies by Fisher are longer, lower and superbly executed.

All New Duo Colors

To emphasize their inherent smartness, all body types are finished in new combinations of Duo colors.

New Beauty and Style

Pontiac Six beauty has always been outstanding. But now in these new and finer models has been achieved not only new beauty, but also an arresting rakishness—the result of a deeper radiator; larger, heavier, and more sweeping crown fenders; and more massive headlamps. Windshield pillars are narrowed to conform to the accepted custom-built vogue and to provide a wider arc of visibility. Window ledges are smartly recessed and finished in a contrasting color.

Canada's Diamond Jubilee

1. Grain Elevators at Port William. 2. Victoria in Western Point. 3. A Trip Down. 4. An Extensive View through the Rockies to a High Light of the Trip.

The Dominion-wide celebration of Canada's sixtieth year of Confederation which is being planned for July of this year, will be the most remarkable and extensive ever held. The last links of a united Canada were placed in position forty years ago with the completion of the Canadian Pacific Railway. It is in furthering the bond between the peoples of the east and the west that this country will be engaged to a large extent during the celebration. One of the most spectacular of plans for bringing the people of all parts of Canada together under

pleasant auspices and at the same time affording them an opportunity of gaining greater first hand knowledge of their country through personal contact has been arranged by the New Outlook, official organ of the United Church of Canada.

On June 25th, a "million dollar" special train will leave Toronto with a limited number of passengers from the eastern provinces aboard, and follow the confederation route. The "Confederation Special," as it will be called, will be operated on the all-expense plan which will enable practically all who have the time to

travel to do so. It will touch all the principal cities and resorts in the west and operate for twenty-one days. The hospitality of the westerners is well known, so it is not surprising to learn that when the first announcement of the train was made, organizations and individuals in every city included in the itinerary offered to entertain the party for sight seeing and enjoyment. The latest invitation is from the Prince of Wales' Ranch at High River to which the members of the special train party will motor from Calgary on July 1st.

Big Industrial Development Planned in Quebec

QUEBEC, March 21.—Premier Taschereau announced this morning that an English syndicate is planning the spending of \$500,000 in industrial development in the Lake St. John region of Quebec province. The premier said he had not yet had official news of the latest developments in the project, but he said he could say that the news was quite true, as when he was in England last year the scheme was being mooted and he was fully cognizant of the whole proceedings.

Cantonese Capture Shanghai

SHANGHAI, March 21.—Chaos reigned in Shanghai tonight after the fall of the city to the Cantonese this morning. Rioters ran loose in the native quarter all day and tonight a band of Chinese troops, presumably attached to the retreating northern army, broke through the barrier to the north of the international settlement and began looting.

A British armored car rushed up in response to a police call for aid. The car was subjected to a continuous machine gun fire. Lieut. Newman, Corp. Ainslee and two soldiers were wounded.

The Girls Hockey Club dance announced to take place on Thursday evening, March 24th, has been postponed until Saturday, April 2nd.

Program of Construction Work In Saskatchewan Proposed By The Canadian National Railway

The programme of construction work on the Canadian National Railway in Saskatchewan to be completed by August, 1930, and now having the consideration of Parliament, comprises the following lines:

Weyburn to Radville, 27.7 miles: Two objects, the railway management states, would be attained by the construction of this line: first, relief would be given to the farmers along its route in respect to their wagon haul to market; and second, the communities Radville, Denbigh, and Willowbush, would be brought into more direct rail communication with the distributing centre of Weyburn, their rail distance to Weyburn being reduced by 123 miles. The route to Moose Jaw would be 14 miles shorter and to Regina, 28 miles longer. The line would run through well settled grain-growing district and our in which mixed farming is increasing. The road haul of the farmers to market at present reaches 15 miles in the centre of the area, and the farmers are looking forward to the development of dairying if their road haul is reduced.

Willowbrook North-Westerly, 22 miles: This is a development and

Leaves To Supervise Operations At Bay

Government Engineer Will Get Settled Into Work of Declining on Best Port

Russell Yull, Ottawa, Canadian government engineer, has gone to Hudson Bay, where a party will spend the summer investigating the merits of Churchill as a port, but will not himself remain there that length of time. The party had already gone ahead, and the coming trip to see it get settled into its work. Twelve or fourteen men have gone north. They and their equipment was transported from the end of steel to Churchill by aeroplane, and they will remain at the bay until fall. Mr. Yull declines to make any comment on his three years at Nelson, to draw any comparisons between Nelson and Churchill, or to remark on the advantages of either port or on the feasibility of the Hudson Bay route at all, or the things that would have to be taken into consideration at Churchill. He said materials were perhaps the most important. They had never been investigated. The mileage of the railroad to that point and the cost of construction were other matters to be considered. Of Nelson Mr. Yull said he was a thing—the work done there was a good shape. When it would be left for ten years and no preparation had been made to meet such conditions it had not been prepared for permanence—it was to have been supplemented as time went on—but it stood today in splendid condition.

Girl's Best Starts Apple Industry

And This Year the American Northwest Will Celebrate Centennial of Founding of Business

Because just one hundred years ago a pretty English girl would have her little North-West's apple industry is to be celebrated at Cashmere, Wash., this spring. From that joke the Northwest has built an apple business amounting to millions of boxes each year. In the spring of 1830, Captain Benjamin Stimpson, a Hudson's Bay Company skipper, was given a basket of fruit in London. Beside him sat a pretty girl, Mary Leigh. The captain told her of the American wilderness. Mary Leigh bit into a red apple and, gathering the pips, presented them to the captain, with the laughing suggestion that he need not laugh "in the wilderness." Stimpson slipped the pips into his green apple pocket. Eight months later he arrived at Port Vancouver. The pips were carefully planted in a box. All winter the box was placed in charge of trusted Indians. Next spring the plants were transplanted to a sheltered nook outside. In three or four years they were green apple trees. It was the first seen in Western America. Indian chiefs and white traders and trappers came in and, with ceremonies, the small apple was divided among them. From that romantic start grew the Northwest apple industry.

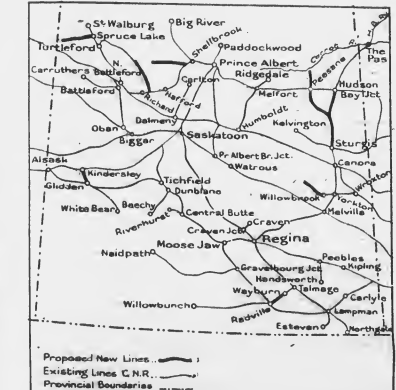

Canadian Scientists Investigate Theory That This Continent Is Drifting Towards West

Used As An Alibi

Soviet Russia Places Responsibility for Propaganda on Third International

Soviet Russia has a good alibi to the Third International. The Third International spreads all the blame and does all the proselytizing. When somebody complains Soviet Russia replies: "Why, that's just a political party, like the Democrats in America or the Conservatives in England." It sounds all right until one dips into the facts. There are two parties in America and three or four in England, but only one in Russia. So far as Soviet Russia is concerned, it knows not one political system and tolerates but one faction, both of which are represented by the Third International. Until it comes itself from that alliance it will have to assume responsibility for what the Third International convives at by stirring up trouble in other countries.

The first stage of an investigation into a theory that the Americans have been drifting westward has been completed. Canada and 29 other countries participated in the scientific effort to prove the theory first brot by Wegener, an Australian physicist. Scientifically, the theory is that in the progress of the ages the Americas have been gradually drifting westward. It is claimed that existence of a coast range of mountains extending throughout the whole length of these continents is simply the effect of buckling or crushing at the forward edge due to this drift. The present rate of the drift is estimated at one metre a year. Through an international arrangement 50 stations, distributed in 20 countries were united in a longitude net by astronomical observations, coupled with radio wave signals. The relative longitudes of these stations having been determined, it will be possible by a repetition of the observations at some future date definitely to settle the question of continental drift. Canada took part in the investigation by occupying two stations, one at Ottawa and the other at Vancouver. At each station two telescopes were constantly in use as well as auxiliary equipment of clocks, chronometers and wireless instruments. At Ottawa astronomical observations were obtained on 23 nights, and at Vancouver on 25. At each place wireless time signals from five distant sending stations were received and measured at all hours of the day and night, the total number of distant signals amounting to over 1,200. Observations to determine the relative positions of the four observatories engaged were made at the Dominion Observatory, Ottawa, both before and after the main series of observations. Other investigations have established many favorable points in connection with the theory of drift. It has been determined that the substratum underlying the surface crust of the earth is not absolutely rigid but is susceptible, under the action of long continued stresses, to gradual deformation. Thus continents may be considered as floating on a substratum which, when considered over long periods of time, acts like a semi-viscous fluid. It has also been proved that at one time there was a much closer association between the forms of plant and animal life on the Americas and Europe and Africa.

Something New For Berlin

First Ice Cream Soda Fountain Makes Big Hit

The American soda fountain at last has obtained a foothold in Berlin. Refreshment of almost every other sort in the world has been long obtainable here, but not until recently has it been possible to buy an ice-cream soda. There is now a full-fledged fountain, with conspicuous signs on the windows, reading "Soda Fountain—Ice Cream." Curiously, the neighborhood selected is probably one of the least frequented by Americans of any of the central districts. It is directly opposite the railway terminal which lands passengers from Southern Germany. The arrivals from the home of good Bavarian beer take very kindly to the "new" American beverage, even in the present cold weather.

Is Canadian Better Farmer?

Washington Paper Refers to Their Successful Competition With American Agriculturist

"Is the Canadian a better farmer than his fellow agriculturists on the United States side of the boundary?" the Washington Post asks this question in regard to the passage through Congress of the Farm Relief Bill which the President has vetoed. The newspaper finds it "difficult to understand how the Canadian farmer can compete in this market against the American. The American cultivates in the wheat market on this side of the line against the duty of 30 cents per bushel." Yet the Canadian farmer does compete in this market. The Post says, and quotes official records of imports of wheat for milling, re-export and domestic use. "It can not be claimed," the Post goes on, "that the Canadian farmer has any advantages over the agriculturist in the United States. The climate of the Canadian wheat region differs very little, if at all, from the climate of the American wheat belt, especially the spring wheat region. Yet the Canadian grower has not asked his government to finance his operations."

Plays Study of Evolution

Should Not be Taught in Canada's Schools Says Winnipeg Lawyer

Declaring that evolution is a question of outstanding importance for the consideration of the federal and provincial governments of Canada, R. A. Boman, K.C., eminent counsel, lawyer of Winnipeg, favors abolition of the subject from the public school curricula. "Belief in evolution," Mr. Boman said, tended to atheism. "If all the people of Canada were atheists we would be a nation of criminals," he added. "Why people insist they were descended from monkeys I cannot understand. They are quite welcome to insist their ancestors in this manner, but I am sure mice were not monkeys."

Scientist Has New Theory

Important Pronouncement on Origin of Man is Looked For

"Sir Arthur Keith," world famous anthropologist, is preparing a lecture for delivery before the Royal Anthropological Institute, which is hailed as almost certain to constitute the most important pronouncement on the origin and development of man that has ever been propounded by the theory of descent. Scientists are expecting him to suggest modification of the Darwinian theory, which would emphasize man's many animal and human qualities, on tracing the old theory of man's straight descent along one branch from animals.

Improved Table Corn

Three Varieties of Sweet Corn Suitable for Western Cultivation

"Three varieties of sweet corn, Plekaminny, Banting and Tasty Malochin, produced by the Horticultural Division of the Experimental Farms, give great promise, particularly for the cooler parts of the country. Plekaminny is an early dwarf in habit, bearing its ears close to the ground. When ready for use the kernels are white with a slight purplish tinge, broad, moderately deep, very tender and extremely sweet. As the corn matures the kernels change to a golden yellow, in which condition they are still tender and sweet. Banting, also dwarf in habit, was produced from a cross between Plekaminny and How's Alberta Flint. Its habit of growth is much like Plekaminny. The kernels when ready for cooking have an attractive golden-yellow colour, broad, moderately deep, quite sweet and tender. Early Matern grows to a height of about five and a half feet, bearing medium to large ears usually bearing twelve rows of kernels, which are very desirable. This is proving to be a very attractive table corn. The report of the Dominion Horticulturist for 1925 shows illustrations of the cobs of these varieties in full size."

combination branch in the mid-eastern part of the province. The purpose of the line is to give better railway communication to the district northwest of Willowbush, lying between the Yorkton branch of the C.P.R. and the main line of the Grand Trunk Pacific. Eventually it is planned to extend this line through the unreserved area between the existing railways. With the exception of the Beaver Hills forest reserve, the area is well populated and good crops are generally obtained. It is felt that the shortening of the road haul to the farmers will offer encouragement for further settlement and development.

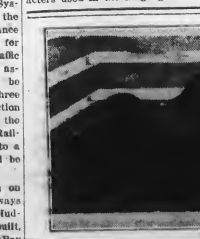

Branch to near Poonoan, 100 miles: This line in the north eastern part of the province would open up a large area of good agricultural land and give railway transportation to the Soldiers' Settlements south of Poonoan. It would provide a shorter and better through route for traffic from the Melville and Prince Albert districts to Winnipeg and the head of the lakes. There is ample precipitation for crop raising and mixed farming in the area. The proposed new railroads would also form part of the link between Hudson Bay Junction and the lines of the Canadian National in Southern Saskatchewan.

Poonoan, Northerly, 19 miles: The purpose of this line is to open up and give rail communication to an important section of the Carrot River country. The territory on both sides of the Carrot River, as far east as Lange, has a very good character of soil and is now being cleared off. This is one of the best grain growing districts in the West, having ample rainfall each year. There is considerable settlement and this will be greatly encouraged by better railway facilities.

Shellbrook (or near "Parloise"), Westerly, 37 miles: For a considerable time the people living in the district to be traversed by the proposed line have been in need of railway facilities. There already is good settlement and development, there being a high proportion of excellent arable land for grain growing and mixed farming. This branch, which, in the opinion of the Railway, would be justified by the cutting down of the wagon haul of the settlers and the

Arm's Factory Invitations Issued Formal invitations for the three-power naval conference to be held at Geneva at an early date after June 1 as is convenient have been issued by the United States government to the British and Japanese ambassadors. The text of the formal invitation is understood not to contain any fixed formulae to guide the Geneva negotiations.

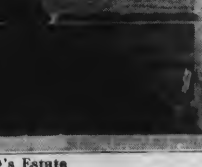

An efficient Japanese speech maker, he is familiar with 4,000 Japanese characters used in the language.

Will Serve India First India will be the first destination of the empire airship service and the two new superdreadnaughts of the navy are to be put in commission for the eastern route. The Canadian flight is not expected to materialize now for some considerable time, eighteen months at least.

Wild Ducks for Lord Byng's Estate

Canadian Pacific Express Company handled the shipment through Montreal recently and delivered the ducks at St. John where they sailed on Canadian Pacific liner "Montroyal" for England. Their shore photographs show the ducks in their element at the thirteen yards. The ducks seemed to

Regarding their strange surroundings, calmly but they did not take very kindly to human interference. They ignored any friendly overtures even when accompanied by food. They were casual when quite young in the sloughs of Manitoba and have been kept for some time in the city park at Winnipeg.

Soviet Purchases in Canada Louis Kon, trade delegate for the Union of Soviet Socialist Republics, Saturday confirmed the report that an order for \$1,000,000 worth of blueberries had been placed by Russian interests with a Bradford firm. Mr. Kon stated that large purchases of other goods were being made in the Dominion.

Possession of an umbrella is regarded as the mark of a Frenchman in West Africa, as a mark of distinction. Hence the native workman saves his money to purchase one of more umbrellas. CHAPTER XXII

The Challenge

Two cars crept upwards along the famous road that climbed the mountain. Keenly, the red roadster, with its master at the wheel and Joanna seated beside him, sped up the hill. The single seat, tilted slightly from the straight-ahead position, into the slanting position that narrowed gradually until it became barely more than a path sloping sharply toward the summit of the hill. Ahead of them, Brandon, muffled in tweeds covered in a black domino, sat beside an elderly, jockeyed chauffeur who steered a much larger car than Keenly's. The purple mist, hued

When Antoine had made a turn with the road and a knowledge of the bank which stamped him as familiar with the road, he followed, he observed.

"There are few women in your world, Monsieur, when I take my seat, or my new into drivers. Your women are playthings. That's why we don't let our imitate them."

The lumps of Keenly's roadster suddenly revealed another picking its same moment a dice of pale yellow light shone through the mist low as the immediately wiped away by the gray mass of cloud-like atmosphere.

"What was that?" Joanna asked. "The light-house at La Tulle vil-

you to throw your colors at my feet and change me to fasten them to my shield. If I can. I've never experienced that before, from a woman. They've done it, of course, but they thought they were furthest about it."

"I don't believe in being furthest," she returned. "It used to be the fashion, and the custom, I know. But what's the use? Any woman always knows what another woman thinks. And every man knows what his brother wants. They pretty well know what they think about each other—every woman and every man. So much has gone wrong in the world, it seems to me, because people have always tried to make a mystery and a game out of the plain and common place. It's more fun to be honest. If a girl builds a wall round herself she always leaves an opening that she can peek through. That's the breach through which a man conquers her. If she's weak. So why have the walls? I think it's better to stand out in the open—better for her, I mean. She can see what's coming at her, then, and be ready for it."

"So you have decided to put your arms down and tell me I may have whatever I can win? Just why, if it's not asking an advantage, have you chosen me?"

As was her way, at times, she considered this quietly. He waited, apparently intent upon keeping his car safely away from the ledge at the outer side of the road. At last she answered him.

"It's because you're straight, Lord. Straight, according to your standards. You've never fooled me, nor concealed your desire of me since you first asked me to drive. You've John's accusing him from my lips with a warmer one from yours. I know enough then, thanks to what I learned of me, to realize by the feel of your arms that you would be determined to hang me up, if you could, with your other trophies—as you would any woman who'd make herself interesting to you. And you've never intended to deceive me. You've even amused me, unobtrusively. Now I'm wondering if, after all, I haven't been deceiving myself."

She paused, but Keenly would not speak. He thought she would go on, and presently she did.

"John has done a big thing. When he's had a chance to let his car go up like we are going now, through the mist, straight toward the end of the rainbow. He tells me he's been here a while—and I suppose he's right. His pride and his triumph doesn't fit with his loving me because, he says, I've wasted my time. Telling the clouds with tinsel. Betty Weymouth is convinced I'm not worthy of Teddy. I'm not worthy of him, he wants to marry me. And I suppose I'm not worthy of whoever it is who gave me my money, for he has never repaid himself. So it may be that I'm worth only the kind of thing you've been wanting to give me—the sort of thing you gave to me."

"When I was Twenty-seven, I said I was what I thought it was. I was to be bold enough to let everybody know I was a girl, that enjoyed being a girl, unashamed to

People of Quebec Were Slow in Recognizing His Ability

While the House of Commons was quick to sense the talent of Wilfrid Laurier, and to give him to property as to his brilliant future, the people of his own province were not so wise, at first. When the tall, slim young lawyer from Arthabaska sought re-election in Drummond-Arthabaska after appointment to the Dominion Cabinet in 1877 he failed to win. Of course, the Government had to have a seat, so the Government resigned and offered him Quebec East, which he was to represent for the next forty-two years.

When Laurier came to Quebec to carry on his campaign he was a young unknown, but he had a few good friends who were not without resourcefulness. One of these was the present Senator J. P. B. Casgrain, who was to be an intimate of the future leader for nearly a half-century.

Senator Casgrain told the Montreal Reform Club the other day of Laurier's coming to Quebec. Casgrain and a few friends met the candidate at the ferry crossing from Lévis, cheered him on his arrival, then doled around corners and cheered him again and again at successive stages of his passage to the city, in order to raise his popularity and create the impression that he was popular at that time.

Eight years ago, on Feb. 17, the election passed away, having won not only Quebec but the Dominion in numerous elections, and having received high honors in London, the Capital of the Empire. — Toronto Globe.

Causes of Asthma. No one can say with certainty exactly what causes the establishment of asthmatic conditions. From the street, from flowers, from rain and various other irritants may set up a trouble impossible to eradicate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

Picture May be Valuable
A Van Dyke picture of the Holy Family, purchased for fifty cents at an estate auction in New Zealand, may be worth \$100,000 to the purchaser as a result of its being a copy of an assessment of its value is correct. Russian Peasants Unhelped

Living Under the Terror of a New Despotism

The peasants of Russia are living in the same darkness and under a new terror and despotism. Most of them do not realize what would be a more practical form of existence. The Soviet Government does not seem to understand them either, thus leaving the most important problem unsolved. The Soviet Government buys tractors and modern farm machinery to help the peasants. It supplies a great mechanical need. But the need that arises from the peasant's heart, the desire to own the land that he tills, that need has not been met. No wonder that the peasant are again restive, and even openly defiant of the despotism of the Communists, who only a militia or less in number, hold in their fists the rest of the Russian nation!—Count Leo Tolstoy in The Outlook.

Little Helps For This Week

God shall supply all your need.—Phil. iv. 19.

I look to Thee in every need,
And never look in vain;
I feel Thy touch, Eternal Love,
And all is well again.

The thought of Thee is mightier far
Than sin and pain and sorrow are.

Discouraged in the work of life,
Heartened by its load,
Shamed by its failures or its fears,
I sink beside the road.

But let me only think of Thee
And then new heaven springs up in me.

—Samuel Longfellow.

Thy God shall supply every need.
Here is a key to open every door
Before which we pause, saying, "How
shall I get through?"—a mighty man-
tey-key for the regions of Giant Des-
pair, for every lock in Doubting
Castle. "I have a key in my bosom
called 'Promise,' said Hopeful; and
he had forgotten to take it out.

—Anna D. Warner.

Is Your Stomach Troubling You?

It's a treacherous atmosphere, he reminded her. "One can never foresee its next day's consequences."

"Consequences are uncertain things that make into a prophesy, aren't they?" she asked. He studied her a moment, peering at her through the fog. He saw the vague shadows lurking in her eyes, shadows that came and then vanished as if they were fugitives of the mist that had reached a haven of brown depths.

"Are you wondering," he asked, "what is to be the outcome of—well, of your invitation to a battle between us tonight? If you are, it is useless. There will be one thing or another, joyful, glorious, fearful, beautiful; or so far as I am concerned, empty and, in that event, meaningless to you."

She was silent, motionless, for a time. Then "How are you going about it, Roddy's? You are to tell me that you love me, want me, and recite all those rituals of adoration for which you are distinguished. That much of course, I am to measure you and measure myself. That will be the obvious program. But there must be some new note. What shall it be?"

He guided the car back into the road, startled that the bigger, that had been ahead of them, had gone a safe distance beyond. "You are, in yourself, the one overwhelming new note," he declared then. "You and the white of

Mr. W. H. Skyring

Chelms, Ont.—There is nothing better as a building tonic and blood medicine than Dr. Pierce's Golden Medical Discovery. Several times when I was run down, suffered from weak stomach, I took the Golden Medical Discovery and always obtained good results. It enriched my blood, relieved me of the weak stomach, built me up in health and made me feel like a new person. I also found it a splendid tonic to take following motherhood to give me strength. I always recommend Dr. Pierce's medicine to those whom I find ailing for I know them to be just as advertised.—Mrs. W. H. Skyring, 62 Nottingham St.

NOTICE.

In the District Court of the District of Macleod

TO:—
BARNEY HARRIGAN, formerly of Coleman.
TAKE NOTICE that an action has been commenced against you in the District Court of the District of Macleod for the cancellation and delivery up of an agreement for sale made between you as purchaser and The International Coal & Coke Company, Limited, as Vendor of Lot 6, Block 10, Coleman 820L, and for forfeiture of all moneys paid thereunder and costs.

AND FURTHER TAKE NOTICE that unless you do within 15 days from the 24th day of March, 1927, cause to be filed in the office of the Clerk of this Court at Macleod a Statement of Defence or a demand that notice of any applications to be made in the action be given to you, the said Company may apply to the Court for such judgment as it may be entitled to and such judgment may be given in your absence and without further notice to you.

Dated at Coleman the 16th day of March 1927.

R. F. BARNES,
Solicitor for the Company.

Local and General Briefs.

Recordo Cortes in "Eagle of the Sea," will be the big attraction at the Palace and Grand Theatres on Saturday of this week. A children's matinee on Saturday afternoon commencing at 2 p.m. Movie fans who like plenty of action and thrills will not be disappointed if they see this thrilling picture.

Monday was the first day of Spring, and for once at least the weatherman kept in step with the calendar. All we now need to make it official is for some enterprising boy or girl to see a robin or find a crocus, then we can start the baseball season and dig up the garden without appearing to be rushing the season.

Rev. Father McCormick, of Coleman, spent St. Patrick's Day in Fernie.—Free Press.

A dance in aid of the local Baseball Club will be held in the Opera House on Wednesday, April 20th. The Elk's Blendwell Orchestra of Pincher Creek, will supply the music. Watch for further particulars on posters to be printed by the Journal Job Dept., the early part of next week.

Mr. John Haddon, of Calgary, is spending the week in Coleman in the employ of the Town, procuring data on the light and water question to be used at the hearing before the Public Utilities Board at Edmonton next month.

The local branch of the Mine Workers Union of Canada are planning to give the children of Coleman a big sports day during the summer. They intend earmarking \$1500 of hospital deductions for this purpose.

St. Paul's United Church of Canada

Sunday, Mar. 27th

2.30 p. m. Sunday School.

11 a. m. Morning Worship.

7 p. m. Evening Service.

You will enjoy the congregational singing.

Strangers and visitors cordially invited to the services.

M. J. Bevan, Minister

Mr. Harry Gate, who has spent the past few weeks in Edmonton receiving special medical treatment at the University hospital, returned to Coleman early last week.

The L. O. B. A. will hold a Tea, Sale of Work and Pantry Sale, on Saturday, April 2nd, in the K. F. hall, from 2.30 p. m. to 6 p. m. Everybody welcome.

buy McLaughlin-Buick for power

GRADES far steeper than any found in ordinary driving offer no obstacles to the relentless power of McLaughlin-Buick's Valve-in-Head Engine. Seventy-five actual horsepower is beneath the hood of the Greatest McLaughlin-Buick—yet so flexible, so easily controlled, so responsive, so vibrationless, that you are unaware of the presence of an engine and realize only that a tireless force is working to your will.

How little the McLaughlin-Buick owner is concerned with this masterful engine may be judged by the facts that he need change the oil only once a season—that troubles due to crankcase dilution, the presence of dust, grit or water are eliminated by the Crankcase Ventilation system, the Sealed Chassis and the Triple Sealed Engine—a combined protection found in no other car at any price.

So, for power—abundant—entiring—dependable—flexible—smooth—
